An exhibition that gives space to works that place the various stylistic differences of the authors in antithesis through a dialogue that underlines the personal experimentation and narration of their own path. A game of opposing connections that ranges from painting to photography, from drawing to sculpture to create vibrant and energetic contrasts, however establishing a harmonious dialogue that opens up to reflective contents. Participation in the exhibition takes place after careful selection of the works.

The selection is open to all artists who want to present their works in the following artistic disciplines: painting, sculpture, photography, graphics.

THE MUSEUM

The whole museum complex is made up of the Museum, the headquarters of the Foundation, the Multifunctional Hall and the Sculptor's studio, who in fifty years of life spent in industrious solitude has created many of his masterpieces and built there, with his hands, stone by stone, all these buildings ... a museum with a strong vitality, characterized by the continuous interchangeability of the works that make it always new and interesting.
